

How to create your MyCi password

The following instructions will help you create your password for the MyCi platform.

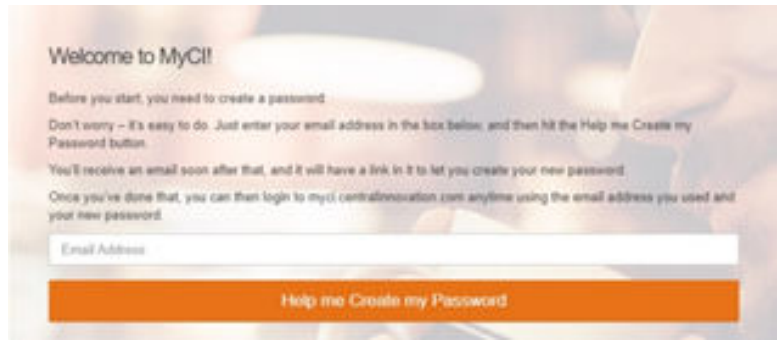

1

Go to <https://myci.centralinnovation.com/People/CreatePassword>

2

Enter the email address that we have on file for you.

If you are new and are not already added to your Company contacts list, contact your account manager to add you to your company's profile.

3

You will receive an email that has a create password link in it.

Follow this link.

You are receiving this email because you or someone using your email address wants to create a login password for the Central innovation support website - myci.centralinnovation.com

[Please follow this link to create your new password.](#)

If you didn't request this, just ignore this email. No further action is required.

4

This link will open MyCi on a new tab in your web browser.

Fill in the fields in the Reset Password Box to create your password then click the Reset Password button. Your password will be saved and you will be automatically logged in to the MyCi platform.

Note: Your password must be at least 8 characters long and contain at least one number.
